

Enterprise Monitoring Report

THE BEST ENTERPRISE MONITORING PRODUCTS ACCORDING TO USERS

WINTER 2022

SUMMARY

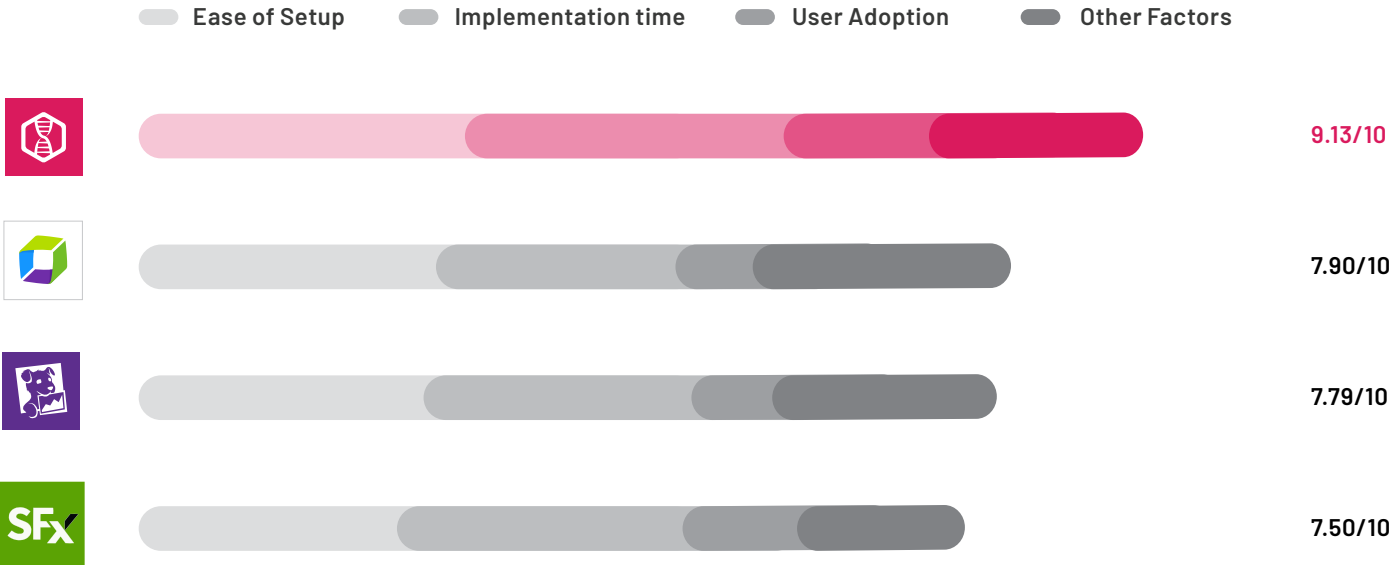

LogDNA is an industry leader in enterprise monitoring, serving hyperscale companies and large enterprises including IBM Cloud, Asics, Lime, and Better Mortgage. Read on to see why users choose LogDNA to help them manage their data.

ENTERPRISE MONITORING IMPLEMENTATION

Implementation scores for enterprise monitoring are shown below. The chart highlights some of the factors which contribute to a product's overall implementation score including how easy a product is to set up, how long it takes to implement, and average user adoption.

“

So easy that I've actually started logging! It's pretty easy to get just about anything to ship logs to LogDNA. Since it's no hurdle, it's now trivial to make sure every device or piece of software I use can output to LogDNA. Since I can also have LogDNA export all those logs to an S3 bucket for me, I now have centralized logging with infinite retention.

”

Phillip S., IT Administrator

ABOUT LOGDNA

LogDNA is a comprehensive platform to control all of your log data. It fuels massive productivity gains for modern engineering teams at hyper-growth startups and Fortune 500 companies, including Asics, Better.com, Sysdig, and 6 River Systems.

Since 2018 LogDNA has been the sole logging provider for IBM Cloud, where they partner to drive innovation in observability at hyper-scale. The company has been recognized as one of Forbes' Cloud 100 Rising Stars, EMA's Top 3 Observability Tools, and Gartner's Top 25 Enterprise Software Startups to Watch.
